

ClinicalKey AI App Guide

The ClinicalKey AI app enables users to use ClinicalKey AI on the go via their mobile device. These instructions describe how to download and access the app and utilize key features.

ELSEVIER

Advancing human progress together

Downloading the App

1. Scan the QR codes on the right with your mobile device's camera to open the Store **(Figs. 1, 2)**.
2. Click to download and install. (This is a free-of-charge app but it requires you, as an individual or your institution, to be subscribed to ClinicalKey AI.)

After completing these steps, you will be able to start using the ClinicalKey AI mobile app.

Using the App

Prior to using the app:

On the login page, enter the email address associated with your user profile.

Once logged in (Fig. 3):

- A. Input clinical query using natural language in the “Ask a question here” box.
- B. Change the population focus.
- C. Launch *My CME* to claim and redeem credits.
- D. Click your account in the top right, then *Application Settings* to navigate to:
 - *How It Works* (including information on content curated for point of care use)
 - *Contact Us* and *Help*
 - *Registered User Agreement*
- E. Click on the ☰ icon in the top left to access references, calculators, saved and recent questions and more (Fig. 4).

Enable Talk-to-Text Feature

Utilize the talk-to-text mobile device feature to perform even quicker searches

1. Tap the microphone icon  inside the question box **(Fig. 5)**.
2. Speak your question, then tap the Send  to display response **(Fig. 5)**.
3. Talk to text is actively recording when you see the dotted line at the bottom of the input field. The pause button temporarily stops the recording **(Fig. 6)**.

Consult the [Get Started Guide](#) for search tips and additional guidance.
