Advancing human progress together

Accessing ClinicalKey AI

Visit <https://www.clinicalkey.com/ai>.

Click the *Help* button (**Fig. 1A**) to discover key information, including:

- Search tips
- Product tour
- Get Started guide
- How it works (**Fig. 1B**):
 - What ClinicalKey AI offers
 - What content sources it uses
 - What functionality is available

Click *Sign In* and enter email address and password.

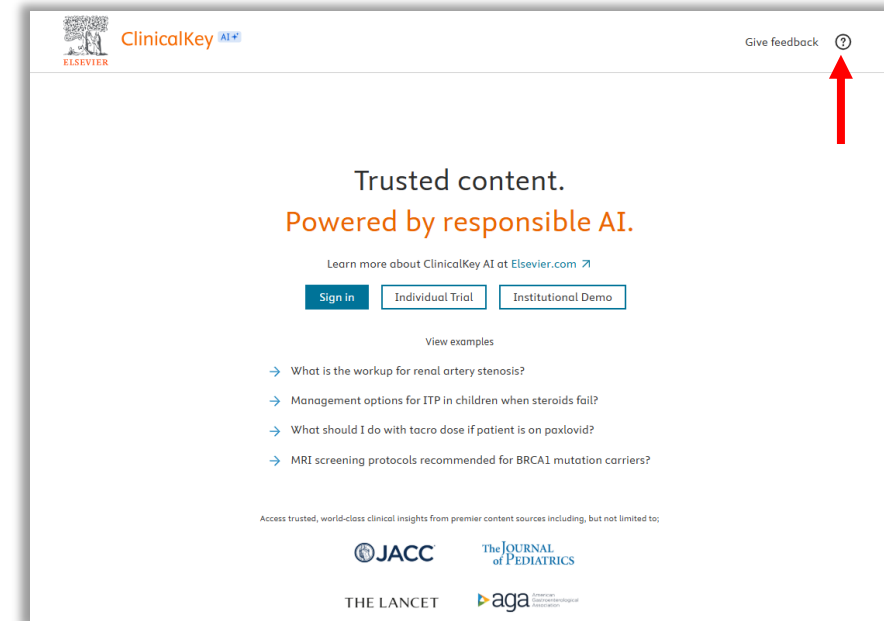

Figure 1A. ClinicalKey AI home page. Arrow, *Help*.

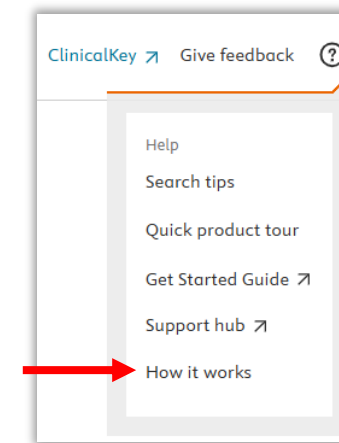

Figure 1B. Help menu. Arrow, *How it works*.

Asking ClinicalKey AI

Select your population focus with the dropdown menu **(Fig. 2, A)**.

- *All Ages* (default)
- *Pediatrics*, or
- *Adults*

The toggle retains your chosen state until you modify it in the future.

From the homepage, enter your clinical question into the text field using natural language **(Fig. 2, B)**. Query assistance is available to guide users through suggested prompts.

Search tips are accessible above the text field **(Fig. 2, C)**.

Please note disclaimer on AI-generated responses **(Fig. 2, D)**.

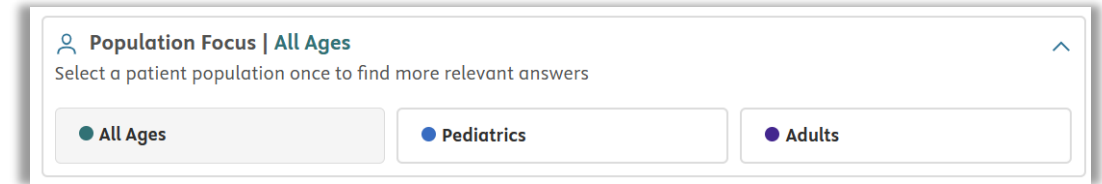

Figure 2, A. Patient population focus.

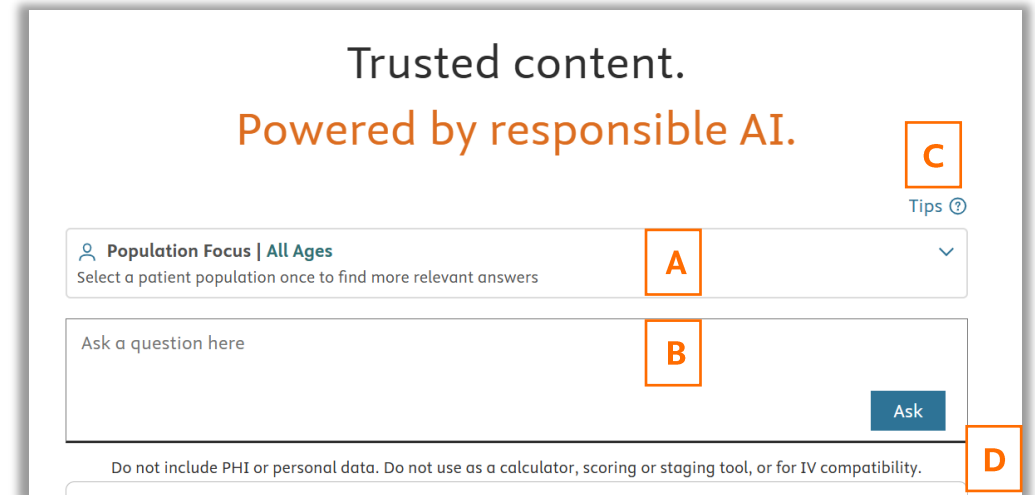

Figure 2, B. ClinicalKey AI homepage.

Asking ClinicalKey AI (cont.)

Collapse or expand the sidebar and ask a new question (**Fig. 3, A**).

Link to ClinicalKey, access the calculators or access your saved questions (**Fig. 3, B**).

Use your search history to locate and re-execute previous searches (**Fig. 3, C**).

Users may save, remove and share recent questions using the three dots near *Recent Questions* (**Fig. 3, D**).

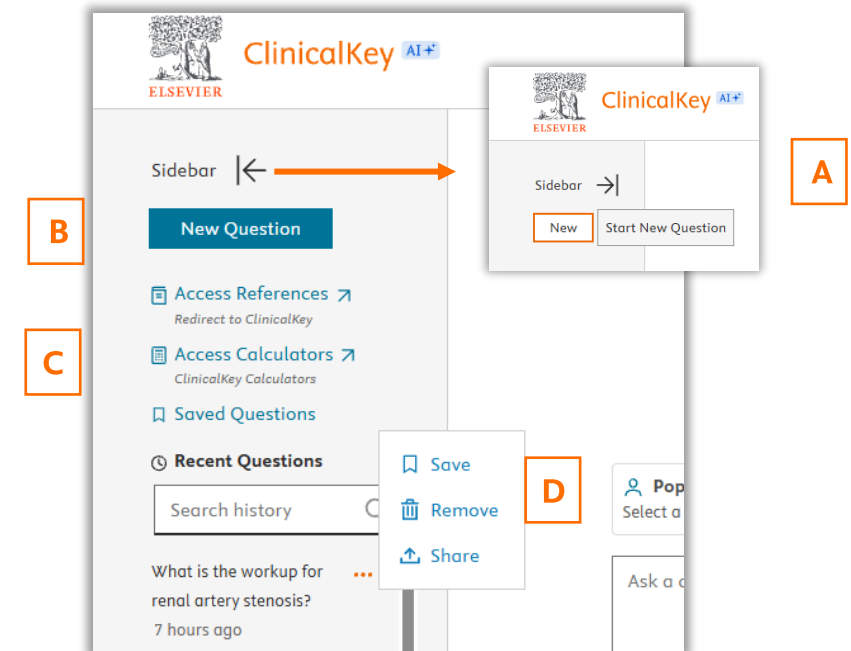

Figure 3. ClinicalKey AI sidebar.

Asking ClinicalKey AI (cont.)

ClinicalKey AI will re-write the query with applied spelling checks as well as expanding any acronyms before the response is generated on-screen.

1. Review the summary and bulleted statements for AI-generated response (**Fig. 4, A**).

2. Choose to *Save* for future use or *Share** the query with a colleague (**Fig. 4, B**).

* If sharing is configured for your institution, see additional details [here](#).

3. Expand *Additional Information* drop-down for further details (**Fig. 5, A**).

4. Consult *References* for evidence-based sourcing and publication details (**Fig. 5, B**).

5. Redeem your earned CME credits by clicking *CME* (**Fig. 5, C**).

If ClinicalKey AI cannot generate a response, based upon current literature sources, users will encounter an Insufficient Evidence message.

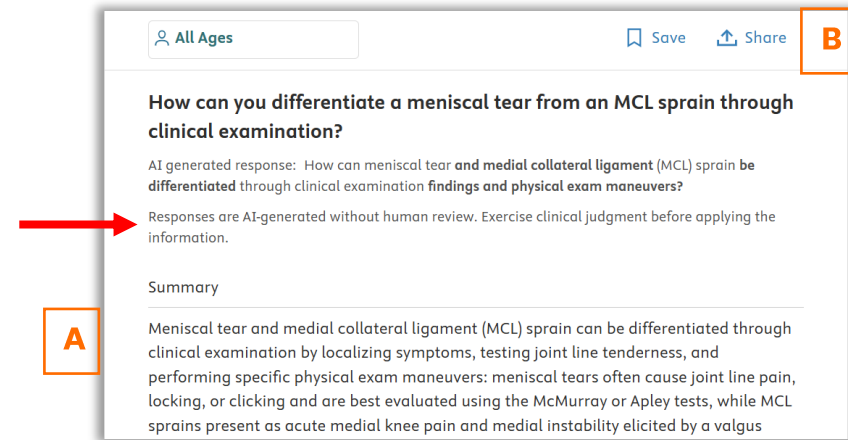

Figure 4. ClinicalKey AI response.
Arrow, AI-generated response disclaimer.

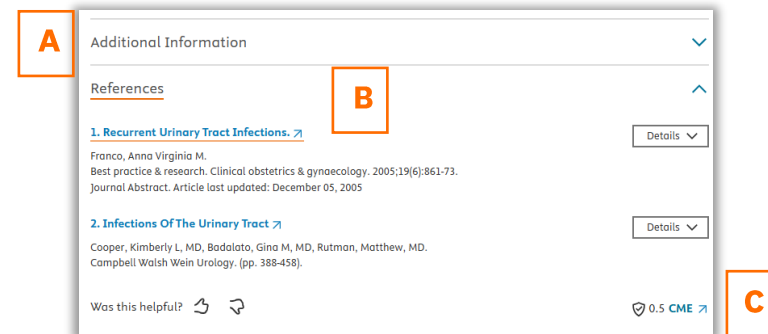

Figure 5. Additional information and references.

Language Toggle and Conversation Sharing

Translation support for **French, German, Spanish, Italian, and Portuguese (Fig. 6)** for the primary response, *Additional Information* and *Follow-up* sections is included for ClinicalKey AI.

 The language toggle will only display when a query has been submitted in the supported non-English languages.

While the system may support additional non-English translations, those languages have not been validated. The list of supported languages will grow over time.

Share your conversations with another medical professional by clicking the  [Share](#) (“*Share*” icon) button above any question. A preview of the question will be displayed, along with a warning to not share personal health information (PHI) (**Fig. 7**).

The recipient of the message will be required to log in or register for an account and accept the Elsevier terms and conditions to view the shared conversation.

References and ClinicalKey Integration

References

1. Select *Details* (**Fig. 8, right arrow**) to display the content that was sourced for the answer.
2. Click the title of the reference (**Fig. 8, left arrow**) to link out to the source content.

Content is refreshed daily for ClinicalKey AI.

Linking to ClinicalKey

3. Register or log in (**Fig. 9**) to use the ClinicalKey personalization features, such as:
 - Saved content
 - PDF downloads
 - Presentations
 - CME credits
 - Remote access

For more information about creating a personal account and its benefits, please visit this [guide](#).

Follow-up Questions and View Account

Follow-Up Questions

1. Scroll below the AI-assisted response, once complete, to input a follow-up question (**Fig. 10, A**).

OR

2. Select from the suggested list of follow-up questions (**Fig. 10, B**).

Do not include PHI or personal data. Do not use as a calculator, scoring or staging tool, or for IV compatibility.*

*If your organization has executed a business associate agreement (BAA) with us that is in effect, this may not apply; ask your administrator if unsure.

View Account

1. Click your account initials and select *View Account* from the menu (**Fig. 11**).
2. A new window or tab will open to <https://myaccount.elsevier.com/>. Account options such as language preference, sign in details and account information can be accessed here.

Saved Questions and Feedback

Saved Questions

1. Click *Saved Questions* from the left panel of any page.
2. Select the questions you wish to *Remove* or *Unsave* from the list (**Fig. 12, arrow**) using the icons, or choose the three dots next to each question to *Unsave*, *Remove* or *Share* the question.

Copy and paste your question from the Search History into the question prompt to generate a response with the most current medical literature.

Feedback

1. Provide feedback as a thumbs up (Helpful) or down (Not Helpful) on specific AI-generated response (**Fig. 13**).
- OR
2. Provide feedback via *Give Feedback* text box for generalized product feedback (**Fig. 14**).

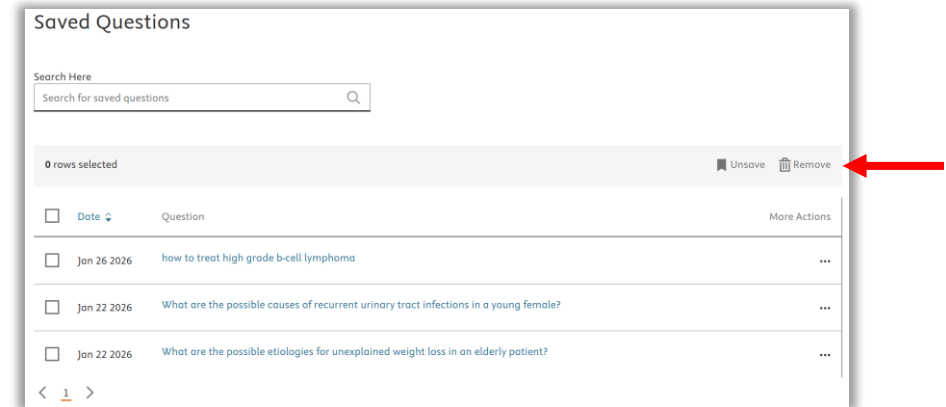

Figure 12. Saved Questions. Arrow, *Unsave*, *Remove* icons.

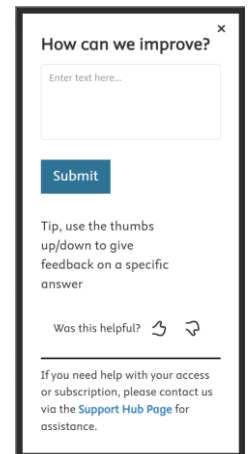

Figure 14. Give feedback.

Downloading the App

1. Scan the QR codes on the right with your mobile device's camera to open the Store **(Figs. 15, 16)**.
2. Click to download and install. (This is a free-of-charge app but it requires you, as an individual or your institution, to be subscribed to ClinicalKey AI.)

After completing these steps, you will be able to start using the ClinicalKey AI mobile app.

Figure 15. Google Play Store QR code.

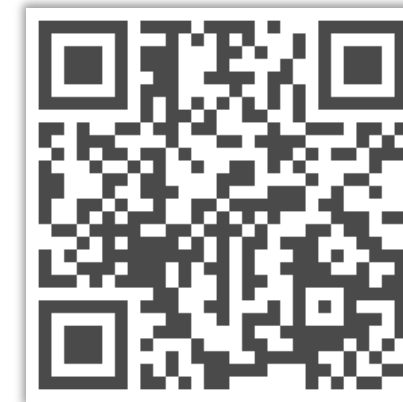

Figure 16. Apple App Store QR code.

Using the App

Prior to using the app:

On the login page, enter the email address associated with your user profile.

Once logged in (Fig. 17):

- A. Input clinical query using natural language in the “Ask a question here” box.
- B. Change the population focus.
- C. Launch *My CME* to claim and redeem credits.
- D. Click your account in the top right, then *Application Settings* to navigate to:
 - *How It Works* (including information on content curated for point of care use)
 - *Contact Us* and *Help*
 - *Registered User Agreement*
- E. Click on the ☰ icon in the top left to access references, calculators, saved and recent questions and more (Fig. 18).

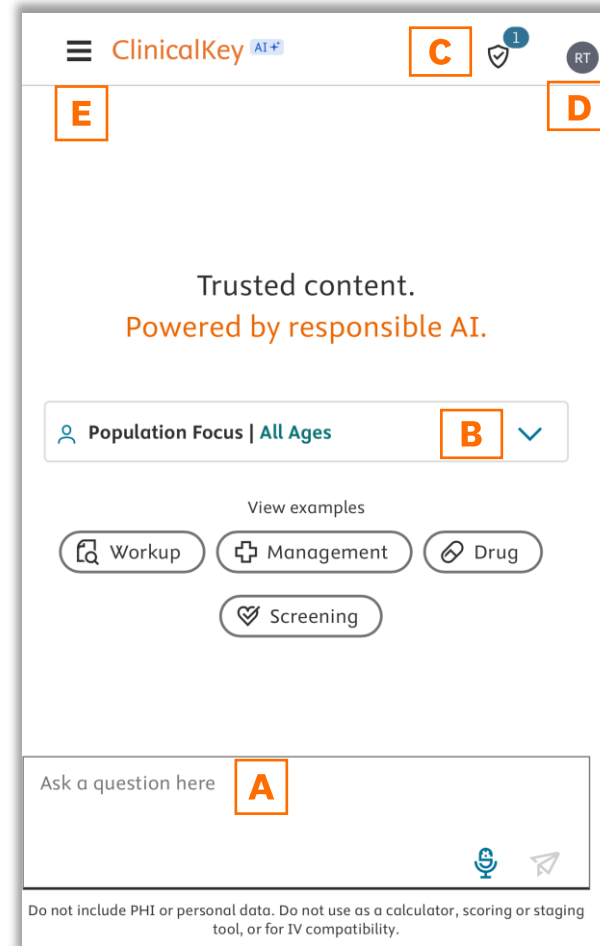

Figure 17. CK AI Mobile App home page.

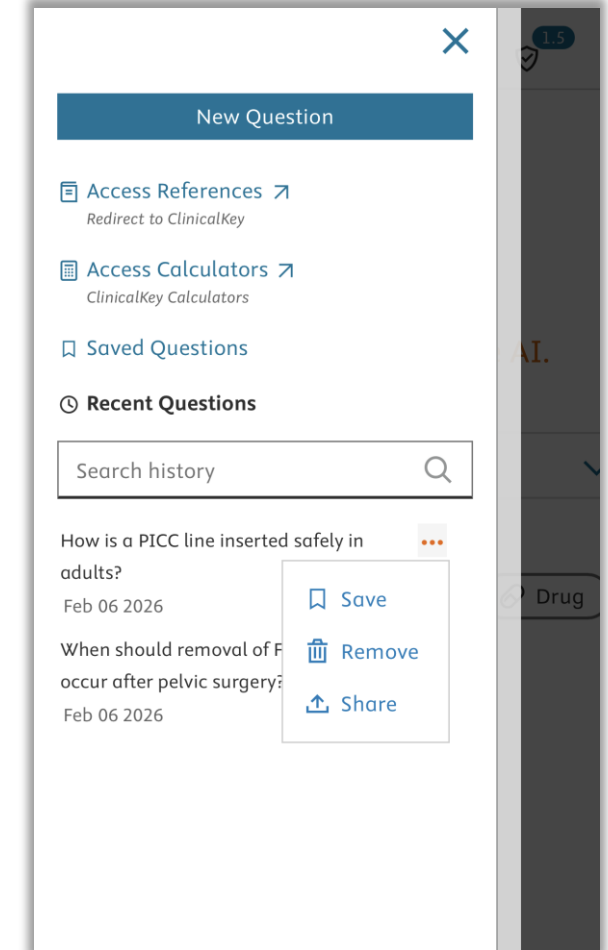

Figure 18. CK AI Mobile App menu.

Enable Talk-to-Text Feature

Utilize the talk-to-text mobile device feature to perform even quicker searches

1. Tap the microphone icon  inside the question box (**Fig. 19**).
2. Speak your question, then tap the Send icon  to display response (**Fig. 19**).
3. Talk to text is actively recording when you see the dotted line at the bottom of the input field. The pause button temporarily stops the recording (**Fig. 20**).

Consult the [Get Started Guide](#) for search tips and additional guidance.
